

Property Tax Information:

1. Proposition 13 – Enacted in 1978 – Prior to passage, property tax rates throughout California averaged a little less than 3% of market value. Additionally, there were no limits on increases for the tax rate or on individual ad valorem charges ("Ad Valorem" refers to taxes based on the assessed value of property.)

Proposition 13 initiated sweeping changes to the California property tax system, but as far as the effects in the Auditor's Office process, it capped the ad valorem tax rate at 1% of assessed values. This does not include additional rates for voter approved bonds, if your parcel resides in that specific tax rate area.

2. Proposition 4 – sponsored by Paul Gann. In November 1979, California voters passed Proposition 4, also known as Gann Limits, adding Article XIIIB to the State Constitution and thereby establishing limits on tax proceeds.

Annually the State and each local agency that receives taxes is required to calculate an appropriation limit, which the governing board must adopt. During FY 2017/18 Trinity County's remaining appropriation capacity is \$14,784,982 (legally taxable, but not imposed.) County Resolution# 2018-013 was adopted March 6, 2018.

3. For every dollar a citizen pays in property taxes to the County, it is distributed as follows:

i. County =

\$0.32 cents

ii. Schools=

\$0.64 cents

iii. Special Districts

\$0.04 cents

- 4. The Auditor-Controller is responsible for various aspects of the property tax process. This includes:
 - i. Calculating Tax Rates
 - ii. Calculating AB8 Factors
 - iii. Processing Secured, Unsecured & Supplemental Rolls extended by Assessor
 - iv. Loading assessments from Special Districts and Solid Waste
 - v. Balancing five property tax rolls between Tax Collector & Auditor

- vi. Apportioning Property Taxes to the County, Schools & Special Districts
- vii. Processing Board Changes & Prior year assessments not billed which are received from the Assessor or Tax Collector
- viii. Completing all State reporting requirements (HOPTR, ERAF, Community Schools, Annual Property Tax Report, etc.)

General Fund Information:

- 1. Governmental Accounting is also referred to as "Fund Accounting." If you imagine each fund as a separate checking account, it might be easier to understand.
- 2. There are forty one (41) departments that reside in the General Fund (General Fund Checking Account). This does not account for the one (1) department for General Fund Discretionary dollars.
- 3. General Fund departments do not bring in sufficient revenue streams to cover their department's expenditures. This makes them reliant upon the General Fund Discretionary Department.
- 4. General Fund Discretionary dollars are comprised of the following and remain flat lined over the past 6 years:

| i. | Property Tax Revenue | \$7,260,300 | 75% |
|------|----------------------|---------------------|------------|
| ii. | TOT Tax | \$ 175,000 | 2% |
| iii. | Sales Tax | \$1,200,000 | 12% |
| iv. | Other Revenues | \$ <u>1,028,728</u> | <u>11%</u> |
| | | \$9,664,028 | 100% |

- 5. Budget packets are sent out to departments annually normally during April. The packet consists of "known" information that is valuable in establishing the most accurate budget. For example, PERS Rates, LIUNA Rates, Indirect Costs, Workers Comp, Etc.
- 6. Departments prepare their annual budgets using both the information provided in the packet and their own knowledge. The budgets they submit include not only their estimated expenditures but also their estimated revenues for the year.
- 7. During FY 2017/18, the General Fund Departmental Requested budgets submitted were as follows:

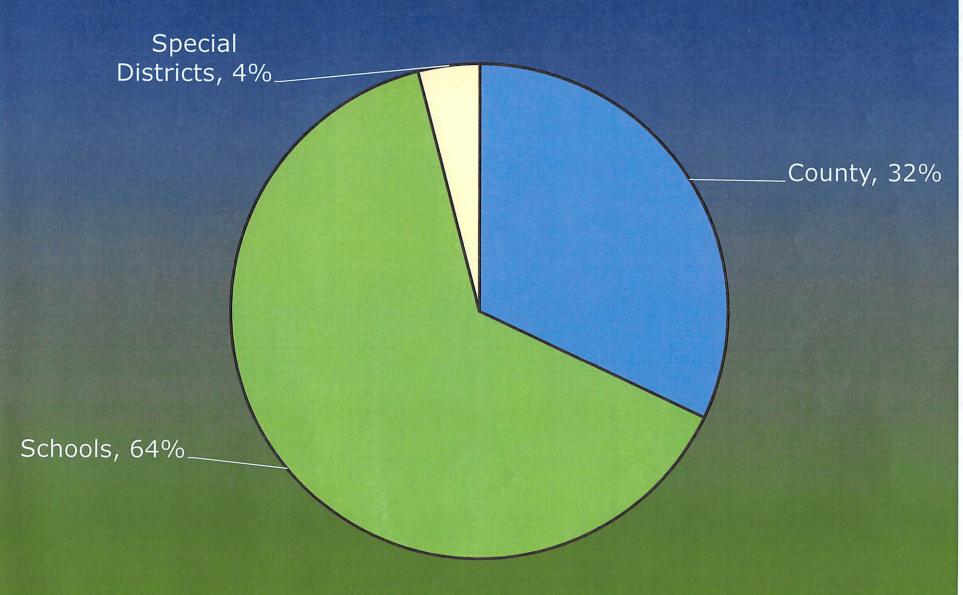

| i. | Total budgeted for expenditure = | \$ 28,481,415 |
|------|----------------------------------|---------------|
| ii. | Total budgeted for revenues = | \$ 15,771,162 |
| iii. | Shortage | \$-12,710,253 |

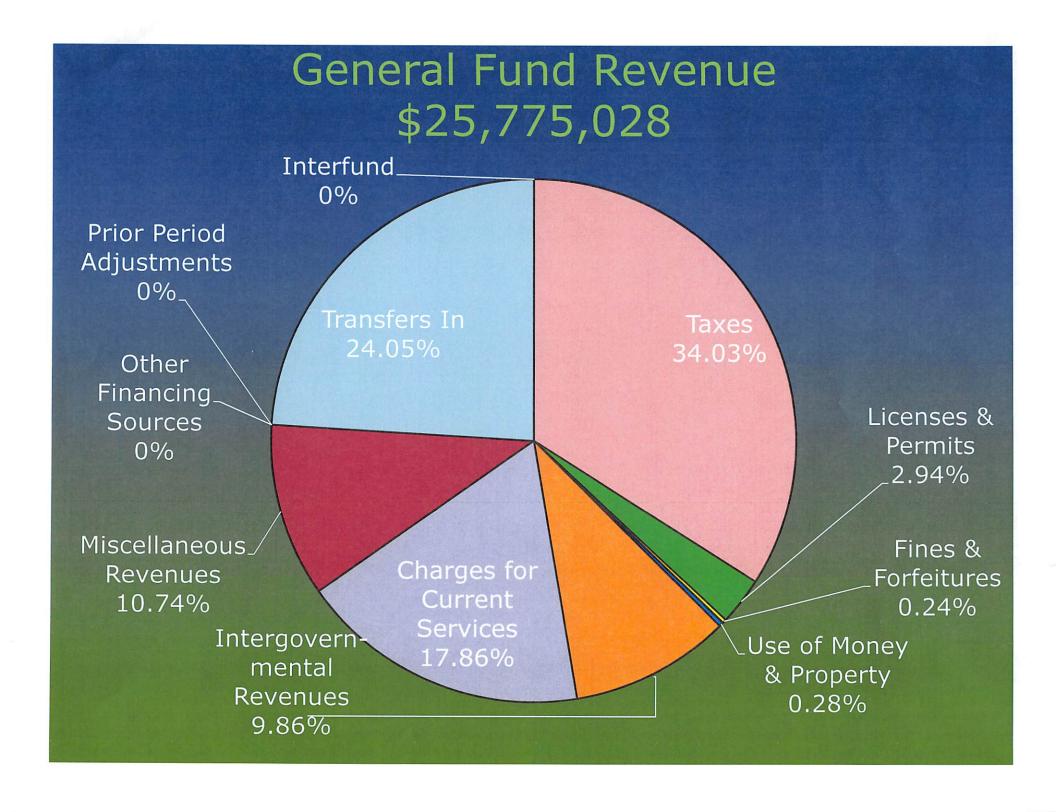

- 8. As you can see in item seven (7), and as stated above, General Fund departments are "<u>DEPENDENT</u>" upon the revenues derived from the Discretionary funds.
- 9. In the absence of a CAO, who is the budget officer for the County, a budget committee was developed. The committee was comprised of two members of the Board of Supervisors, Consultant, Interim CAO, Auditor and fiscal staff of the Administration Office. Through all the efforts of meeting with each department and reviewing their plans, the committee determined how much each department had to cut based on expected resources (revenues). The total amount cut from all General Fund Departments was \$650,150.

In closing, General Fund Departments are all dependent on Discretionary funds to cover their expenditures. However with these revenues remaining flat lined and expenditures continue to increase every year, deeper cuts to departments will be occurring. This will have an adverse effect on the citizens of Trinity County. We are already aware of the increase in expenditures associated with retirement, implementation of the Class & Compensation, and just the normal everyday costs of doing business. The County is in the beginning stages of refinancing the 2005 Certificate of Participation, which, due to decreased interest expense, will free up some of the revenue to apply to other expenses in the General Fund.

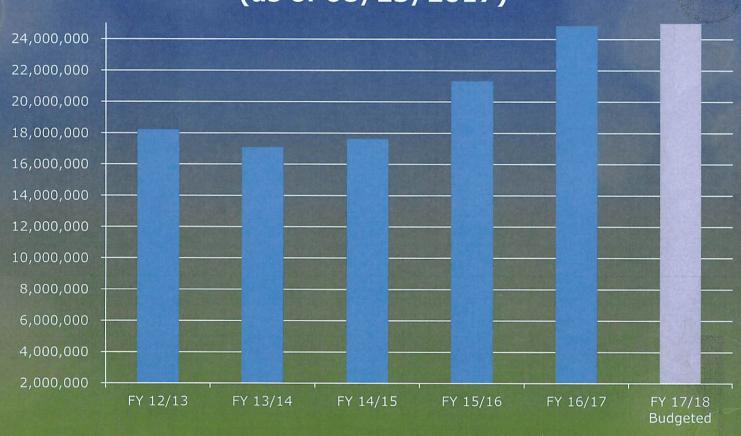

However, unless other major steps are taken to increase the General Fund Discretionary Revenues, increasing tourism, economic development, a Sales Tax increase to fund Public Protection, increasing TOT tax rates, this County will have to reduce services that are funded through General Fund dollars.

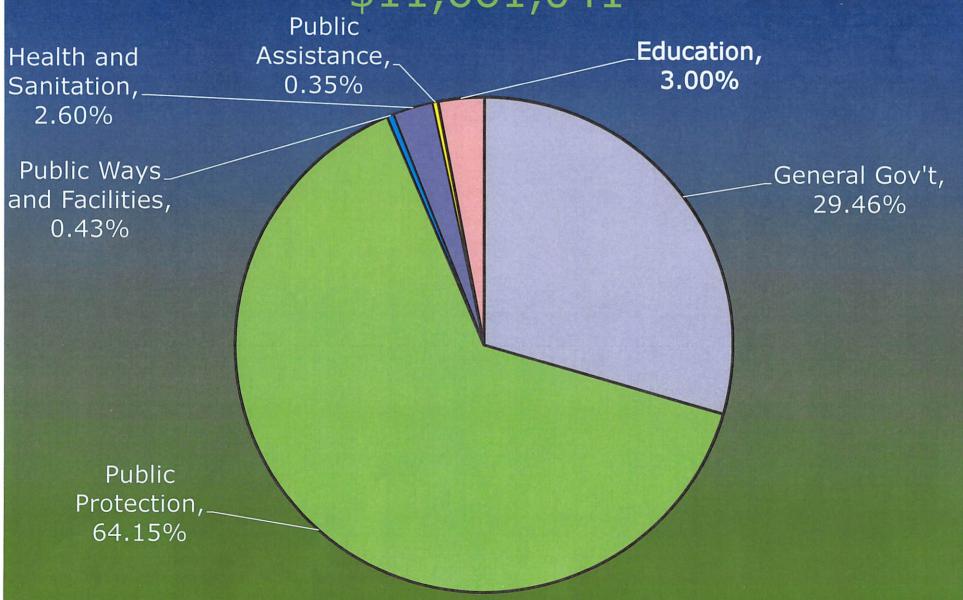

General Fund Revenue - Five Year Trends (as of 08/23/2017)
