

**TRINITY COUNTY PLANNING COMMISSION
STAFF REPORT**

APPLICANT: Trinity County

REPORT BY: Leslie Hubbard

APN: Countywide

PROJECT DESCRIPTION:

Amendment to the County's Zoning Ordinance by adding Section 28.7, an ordinance allowing for Non-Storefront Commercial Cannabis Licenses (Exhibit A).

LOCATION: Countywide

PURPOSE:

The purpose of this item is for the Planning Commission to consider allowing non-storefront sales of commercial Cannabis as proposed in the attached draft ordinance.

BACKGROUND INFORMATION:

This ordinance appeared before the Board of Supervisors on April 3 and April 17, 2018. During the April 17 meeting, the Board agreed to send this item to the Planning Commission for consideration.

At the State level, the Type 9 Non-Storefront Retail License is regulated by the Bureau of Cannabis Control as outlined in the attached Text of Regulations, California Code of Regulations, Title 16, Division 42. Bureau of Cannabis Control (Exhibit B). Several relevant land use-related details from the regulations are included below.

As described in the regulations, a Type 9 license allows retail sales of Cannabis by delivery only. Section 5414 requires that Type 9 licensees comply with all the requirements applicable to Type 10-Retailer licensees, although the licensed premises of a Type 9-Non-Storefront Retailer licensee shall be closed to the public.

In the regulations, § 5416 requires delivery to a physical address as described below:

- (a) A retailer may only deliver cannabis goods to a physical address in California.
- (b) A retailer delivery employee shall not leave the State of California while possessing cannabis goods.
- (c) A retailer shall not deliver cannabis goods to an address located on publicly owned land or any address on land or in a building leased by a public agency. This prohibition applies to land held in trust by the United States for a tribe or an individual tribal member unless the delivery is authorized by and consistent with applicable tribal law. (Authority: Section 26013, Business and Professions Code. Reference: Sections 26070 and 26090, Business and Professions Code.)

The regulations further outline the methods of delivery in § 5417:

- (a) A retailer's delivery employee, carrying cannabis goods for delivery, shall only travel in an enclosed motor vehicle operated by a delivery employee of the licensee.

- (b) While carrying cannabis goods for delivery, a retailer's delivery employee shall ensure the cannabis goods are not visible to the public.
- (c) A retailer's delivery employee shall not leave cannabis goods in an unattended motor vehicle unless the motor vehicle is locked and equipped with an active vehicle alarm system.
- (d) A vehicle used for the delivery of cannabis goods shall be outfitted with a dedicated Global Positioning System (GPS) device for identifying the geographic location of the delivery vehicle. A dedicated GPS device must be owned by the licensee and used for delivery only. The device shall be either permanently or temporarily affixed to the delivery vehicle and shall remain active and inside of the delivery vehicle at all times during delivery. At all times, the retailer shall be able to identify the geographic location of all delivery vehicles that are making deliveries for the retailer and shall provide that information to the Bureau upon request.
- (e) Upon request, a retailer shall provide the Bureau with information regarding any motor vehicle used for the delivery of cannabis goods, including the vehicle's make, model, color, Vehicle Identification Number, license plate number and Department of Motor Vehicles registration information.
- (f) Any motor vehicle used by a retailer to deliver cannabis goods is subject to inspection by the Bureau. Vehicles used to deliver cannabis goods may be stopped and inspected by the Bureau at any licensed premises or during delivery. (Authority: Section 26013, Business and Professions Code. Reference: Sections 26070 and 26090, Business and Professions Code.)

State regulations placed on limit on the value of Cannabis goods that can be carried during delivery in § 5418: While making deliveries, a retailer's delivery employee shall not carry cannabis goods valued in excess of \$3,000 at any time. This value shall be determined using the current retail price of all cannabis goods carried by the delivery employee.

Section 5421 specifies the requirements for delivery routes:

While making deliveries of cannabis goods, a retailer's delivery employee shall only travel from the retailer's licensed premises to the delivery address; from one delivery address to another delivery address; or from a delivery address back to the retailer's licensed premises. A delivery employee of a retailer shall not deviate from the delivery path described in this section, except for necessary rest, fuel, or vehicle repair stops, or because road conditions make continued use of the route unsafe, impossible, or impracticable. (Authority: Section 26013, Business and Professions Code. Reference: Sections 26070 and 26090, Business and Professions Code.)

STAFF EVALUATION:

The proposed ordinance ties Type 9 retail Cannabis sales to the Trinity County Cultivation Ordinance. Thus, retail sales would not be allowed in the "opt out" areas of Trinity Center, Coffee Creek, Lewiston, and Trinity County Waterworks District #1, unless a valid Trinity County commercial Cannabis cultivation license has been obtained.

One of the issues raised during the April 17, 2018 Board of Supervisors meeting involves use of the description in the Regulations section (2.B.iv.) of the proposed ordinance: "Deliveries must be to a physical address, and cannot be sent to a post office box. The physical address must also be the off-site residence of the consumer." Although the proposed ordinance does not include a definition of "off-site" or "residence," Senate Bill 94 includes the following:

For purposes of this section, "private residence" means a house, an apartment unit, a mobile home, or other similar dwelling. (SEC. 130).

Another concern raised at the Board meeting on April 17 involves an interpretation of Regulations Section 2. H.: *Non-Storefront Retailers and property owner where commercial activities are taking*

place must ensure that all commercial Cannabis activities at the site operate in good standing with permits and licenses required by the Trinity County Code and State law. Property owners who fail to take appropriate action to evict or otherwise remove operators who do not maintain permits or licenses in good standing with the County of State shall be subject to suspension or revocation [of the] Non-Storefront Retailer license, as well as personal liability for required enforcement.

The point made regarding this description is that the language places the burden on a landowner for the actions of someone renting or leasing the property over whom the landowner may not have control or even be aware of receiving a delivery of commercial Cannabis.

Comment was also received during the April 17 Board meeting regarding Regulations Section 2.I. that addresses where non-storefront retail activities are allowed or limited. The ordinance proposes to mirror the allowable zoning districts as well as the restricted areas that are identified in the County’s cultivation ordinance. The request was made that the Planning Commission consider if these allowable zoning districts and limitations in the “carve out” areas are equally appropriate for the “premises” associated with the non-storefront retail of Cannabis as they are for cultivation.

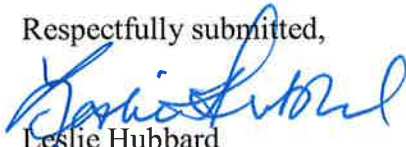

In addition to asking for clarification regarding use of the terms “off-site residence,” public comment included the final request to consider where sales will be allowed and the practicality of enforcement associated with that decision.

STAFF RECOMMENDATION:

Staff recommends the following:

Discuss, provide direction to staff, and/or provide a recommendation to the Board of Supervisors regarding the proposed Ordinance Allowing for Non-Storefront Commercial Cannabis Licenses.

Respectfully submitted,

4.4 Ordinance: Non-Store Front Retail License

Requested Action:

Waive the reading of and enact an ordinance which amends Trinity County Zoning Ordinance No. 315 by adding Section 28.7 regarding Non-Store Front Retail License, introduced April 3, 2018.

Fiscal Impact:

No fiscal impact.

Summary:

The Type 9 License (Non-Store Front Retail) is authorized by the State to conduct retail cannabis sales exclusively by delivery only. Per the State, Type 9 licensee shall comply with all requirements applicable to Type 10-Retailer licensees, except for those provisions related to public access to the premises.

Type 9 – Non-Storefront Retailer licensee shall be closed to the public as required by the State.

The attached ordinance for Type 9 license is also a sub-component of the proposed Type 12 - Microbusiness Ordinance which is before the Planning Commission.

The Type 9 License was recommended by the Ad Hoc as an avenue for Microbusinesses license holders (Type 12) to reach customers exclusively by delivery. In addition, the Type 9 ordinance is linked to those with Cultivating licenses overall whether one chooses to hold a Microbusiness license or not but allow Cultivation License holders to also deliver directly to their customers.

Those who do not hold a Microbusiness license and choose to obtain a Type 9 license will still have to go through a Licensed Distributor before delivering to a customer.

Type 10 Retail License will be presented to the Planning Commission at a future date.

This ordinance was introduced at the April 3, 2018 regular BOS meeting. During that meeting, there were two changes made. These changes are italicized and underlined on the attached ordinance presented to you for enactment.

Alternatives Including Financial Implications:

1. Waive the reading of and enact an ordinance which amends Zoning Ordinance No. 315 by adding Section 28.7 regarding Non-Store Front Retail License. No fiscal impact.

2. Deny the ordinance and there would not be Type 9 Licenses within the County.

Departmental Recommendation:

It is staff's recommendation to approve waiving the reading of and enacting an ordinance which amends Zoning Ordinance No. 315 by adding Section 28.7 regarding Non-Store Front Retail License.

EXHIBIT A

ORDINANCE NO. _____

AN ORDINANCE OF THE BOARD OF SUPERVISORS OF THE COUNTY OF TRINITY ALLOWING FOR NON-STOREFRONT COMMERCIAL CANNABIS LICENSES

The Board of Supervisors of the County of Trinity, State of California, ordains as follows:

Section 1: Findings and Declarations:

- A. The voters of the State of California approved Proposition 215 (codified as Health and Safety Code Section 11362.5 and entitled “The Compassionate Use Act of 1996”). The intent of Proposition 215 was to ensure that seriously ill Californians have the right to obtain and use Cannabis for medical purposes where that medical use is deemed appropriate and has been recommended by a physician, and to ensure that patients and their primary caregivers who obtain and use Cannabis for medical purposes upon the recommendation of a physician are not thereby subject to criminal prosecution or sanction.
- B. The State enacted SB 420 in 2004 known as the Medical Marijuana Program Act (codified as Health and Safety Code section 11362.7et seq.) to clarify the scope of The Compassionate Use Act of 1996, facilitate the prompt identification of qualified patients and primary caregivers avoid unnecessary arrest and prosecution of these individuals, provide needed guidance to law enforcement officers, promote uniform and consistent application of the Act and enhance the access of patients and caregivers to medical Cannabis through collective, cooperative cultivation projects and to allow local governing bodies to adopt and enforce rules and regulations consistent with SB420.
- C. On September 11, 2015, the State enacted the Medical Marijuana Regulation and Safety Act (MMRSA) which took effect January 1, 2016, and which mandated a comprehensive state licensure and regulatory framework for cultivation, manufacturing, distribution, transportation, testing and dispensing of medical Cannabis on a commercial basis. MMRSA was amended by SB 837. On June 27, 2017, the State enacted the Medicinal and Adult-Use Cannabis Regulation and Safety Act setting forth regulations for State licensure beginning in January, 2018.
- D. Previous landmark Cannabis legislation, including the Compassionate Use Act and the Medical Marijuana Program Act have precipitated a “green rush” with individual moving to Trinity County to grow and manufacture Cannabis; with some seeking to capitalize on ambiguities in the law while others lack an awareness of community and environmental consciousness.
- E. Senate Bill 94 known as the Medical and Adult-Use Cannabis Regulation and Safety Act (MAUCRSA), established a comprehensive system to control and regulate the cultivation, distribution, transport, storage, manufacturing, processing and sale of both of the following:(1) Medicinal Cannabis and medicinal Cannabis products for patients with valid physician’s recommendations; and (2) Adult-use Cannabis and adult-use Cannabis products for adults 21 years of age and over.

- F. In the absence of a formal regulatory framework, Cannabis businesses are less likely to learn of, or implement, guidelines that are protective of the public peace health, safety and the environment.
- G. It is the purpose and intent of this Chapter to protect the health, safety, and general welfare of the residents and businesses within Trinity County and comply with state law and federal guidelines.
- H. It is the intent of the County of Trinity to have a strong and effective regulatory and enforcement system with regard to Cannabis that addresses threats to public safety, health and other law enforcement interests through robust controls and procedures that are effective in practice.
- I. This ordinance provides regulations and control over Cannabis, and prevents the potential introduction of dangerous product and practices within the County.

§ 5808. Additional Grounds for Discipline

The following include, but are not limited to, additional grounds that constitute a basis for disciplinary action:

(C) Making good faith efforts to remove items that facilitate loitering, such as furniture, except those structures approved or permitted by the local jurisdiction. The licensee shall not be liable for the removal of those items that facilitate loitering.

(4) When determining what constitutes “reasonable steps,” the Bureau shall consider site configuration constraints related to the unique circumstances of the nature of the business.

(c) Notwithstanding that the licensee corrects the objectionable conditions that constitute a nuisance, the licensee has a continuing obligation to meet the requirements of subsections (a) and (b), and failure to do so shall constitute grounds for disciplinary action.

(d) If a licensee has knowingly permitted the illegal sale, or negotiations for the sales, of controlled substances or dangerous drugs upon his or her licensed premises. Successive sales, or negotiations for sales, over any continuous period of time shall be deemed evidence of permission. As used in this section, “controlled substances” shall have the same meaning as is given that term in Article 1 (commencing with Section 11000) of Chapter 1 of Division 10 of the Health and Safety Code, and “dangerous drugs” shall have the same meaning as is given that term in Article 2 (commencing with Section 4015) of Chapter 9 of Division 2 of the Business and Professions Code.

(c) If a hearing on an accusation against a licensee results in a finding that the licensee has committed any of the acts or omissions constituting grounds for disciplinary action, the Bureau may order the license revoked, suspended outright for a specified period of time, or suspended on probationary restriction for a specified period of time on such terms and conditions of probation as in its judgment are supported by its findings, impose a fine, or any combination thereof. The Bureau may also issue such other lawful orders it considers to be appropriate on the basis of its findings.

Ms. Leslie Hubbard
Trinity County Interim Planning Director

Re: Proposed Amendment of Zoning Ordinance by additions allowing Non-Store Front Retail Commercial Cannabis Licenses (“NSF Retail”)

Dear Ms. Hubbard:

The draft NSF Retail ordinance considered by the Board of Supervisors on April 3 and April 17 has been referred to the Planning Department for review and recommendations, as it should have been before consideration by the Board. Govt. Code Section 65850, *et seq.* Thus far the Board has expressed an intent to hurriedly pass legislative regulation of NSF Retail licenses, but has failed to consider the zoning/planning/land use issues that by law must be addressed first by the Planning staff and Commission, and then by the Board after: a.) public hearings before the Commission; and b.) written recommendations to the Board from the Commission. Below are some suggested issues and thoughts for planning staff and the Commission to consider.

Permissible locations and required conditions for licensed NSF facilities.¹

Under state law a NSF Retail license is a sub-category of Retail licenses. The NSF licensee/business must comply with all of the statutory and regulatory requirements that apply to Store Front Retailers (“SF Retail), including the requirements concerning security, quality assurance, detailed record keeping and preservation, etc. Like SF retailers, a NSF Retail licensee/business must have a specific brick-and-mortar premises; however, unlike a SF Retail licensee, the NSF retailer’s premises must be closed to the public. Therefore the planning considerations for NSF Retail licenses are very similar to the

¹ This section contains recitation of simply straightforward principles that are repeated here to make a clear record because the draft from the Board does not demonstrate understanding of these principles. For example, Section 2 (2)(I) of the draft would provide “Non Storefront Retailers will not be allowed within the following areas: . . .” The fact that the Board almost enacted an ordinance that literally would bar NSF licensees from entering any area of the county that is “carved out” in the cultivation ordinance is, frankly, embarrassing. Further, the draft ordinance states that “Cannabis Non-Storefront Retailers shall possess a valid County Cultivation license . . .”. It is believed that the Board actually intends to require the premises of a NSF Retail businesses to be located on property that contains a licensed cultivation area and is owned or controlled by the owner of the NSF retail business, but obviously that is not said in the draft. Unfortunately these examples typify the written product that can result when the proper procedures required by Govt. Code 65850 are not followed.

considerations for SF Retail licenses (need for security, etc.), but differ because the public is excluded from the licensed premise location.²

It is important to note that cultivation licenses authorize cultivation activity on specific identified premises, and do not authorize a person to cultivate other than on those premises. Similarly, NSF licenses would authorize a retailer to establish a specific brick-and-mortar premises for a non-store front business. The Commission's written recommendation back to the Board should reflect evaluation and recommendations on the zoning/planning/land use criteria for the premises/facility on which a NSF business may be established and operated. That evaluation should include recognition of the applicability of the security, quality assurance, and other state requirements for cannabis retailers. This zoning/land use evaluation obviously differs from the evaluations conducted with respect to cultivation licenses.

Permissible locations and required conditions for NSF deliveries/sales. In addition to the recommendations on regulations on the premises of a NSF business, the Commission should make recommendations on the locations where deliveries/sales shall be made—i.e. identify the properties in the county where deliveries/sales of cannabis may be made through the normal land use planning process. On this subject the Board has thus far sent mixed and misleading messages. Evidently the draft that is being referred to the Planning Commission would authorize deliveries by an NSF licensee to be to a physical address that is also “*the off-site residence of the consumer*”. The meaning of “off-site” means in this context is unclear—if that phrase is to be used it should be clarified. More importantly, there has been discussion at the Board of “residence” meaning the location where the buyer spent the previous night, and/or plans to spend the night of the delivery. Obviously that would open up the possibility of deliveries/sales in a wide variety of locations: business parking lots that allow RVs overnight, private campgrounds, unofficial roadside camping spots with a conjured up physical address, the premises of lodging businesses such as Indian Creek Lodge, etc. Bottom line: the term “residence”, if used, must be clear defined so that the public, the Commission, and the Board have the same understanding of import of the ordinance. With the ordinance as drafted, enforcement of the vague (overnight) “residence” requirement would be impossible, because it would be dependent on the

² Consideration of SF Retail licensure *before* NSF Retail licensure would seem to be a logical approach, but that has not been the sequence chosen.

representations made by the buyer of the product.³ This would make the ordinance a sham, and would essentially place the owner of mainstream businesses in the position of either enforcing the ordinance against the owner's own customers/clients, or potential customers/clients, or running the risk of aiding and abetting violation of the ordinance. The staff time involved for the mainstream business would further add insult to injury. Mainstream business locations present the possibility of minors being present and thus potentially involved in the sale transactions, or having an adult buyer buy product for the minor. These issues, which involve both land use and public policy, should be carefully and thoroughly analyzed.

Notice. The planning commission evaluation of this proposed ordinance must take into consideration the potential impacts on the properties and owners of business premises that are identified as permissible sites for sales/deliveries. To do that properly there obviously should be some form of specific notice to such the owners of such properties and businesses. Further, there should be meaningful notice to the public as a whole, for these decisions can affect the future nature of the communities in which sales/deliveries are allowed. For example, the owners of adjacent properties and organizations such as the chambers of commerce should have a reasonable opportunity to have a voice on an issue that could affect the business environment of their members.

Government Code Sections 65853 *et seq* and 65090 *et seq* require that the Planning Commission hearing be noticed in a prescribed manner, giving a minimum of 10 days' notice. I trust those laws will be observed.

³ Adding insult to injury, the Board's draft says that "property owners where commercial activities are taking place must ensure" that sales on their premises are conducted in accordance with county and state laws. Penalties are threaten if the property owners do not follow this astounding and impractical directive.
