

Open Public Workshop Advertisement for Off-Highway Motor Vehicle Recreation Use

The **Trinity County Department of Transportation (TCDOT)** will hold three public meetings to provide information and solicit feedback regarding **Off-Highway Motor Vehicle Recreation (OHMVR)** use.

TCDOT in partnership with the Watershed Research Center completed a survey of Maintenance Level 3 US Forest Service roads within the Shasta Trinity National Forest. Maps of these roads have been prepared and will be presented at three public workshops.

Feedback is critical as the review is primarily to determine if the County is going to request the USFS consider revising the use and maintenance level of these roads to enable mixed use, including OHV.

Please consider attending one of these meetings to view the maps and provide input.

Workshop Schedule

Wednesday, April 18, 2018 at the
Weaverville Library Conference Room, 351 Main Street, Weaverville
5:30PM to 7:00PM
