### MEMORANDUM

DATE: May 20, 2020

TO: Commercial Cannabis Cultivation Licensees and Applicants

FROM: Kim Hunter, Director of Building & Planning 

SUBJECT: Building Permits Associated with Commercial Cannabis Cultivation Licenses

---

Effective immediately, building permits for accessory structures associated with new or transferred Commercial Cannabis Cultivation Licenses (CCLs) will only be issued after the license has been issued for the premise.

This includes building permits associated with the CCL as shown on the premise diagram or site plan. Accessory structures include, but are not limited to, the following: greenhouses, hoop houses, large water tanks (over 5,000 gallons), and structures utilized for drying, storing and processing Cannabis product.

This does not apply to building permits for residential dwelling units where permitted in the zoning district by right.
