

# Trinity County Community Corrections Partnership

## October 27, 2016 Minutes

Trinity Public Utilities District Conference Room  
26 Ponderosa Ln.  
Weaverville, CA 96093

In attendance: Bruce Haney, Hal Ridlehuber, Caedy Minoletti, Anne Lagorio, Mike Harper, Letty Garza, Rachel Sanger, Larry Olsen, Ryan Ham, Eric Heryford, Andrea Saxon

Call to order at 10:06am.

### **Introductions**

- Ryan Ham is the new CHP Commander and will be taking Mark Loveless' seat on the Executive Committee
- Letty Garza is the new HHS Director
- This will be Hal's last meeting as he is retiring

### **Review and Approval of Previous Meeting's Minutes**

- Amending requested in the Behavioral Health section.
- Bruce motions to approve the minutes from May 19, 2016. Hal seconds. Minutes are approved.

### **Review of Currently Funded Programs**

#### Sheriff's Department

- The Edovo program is taking longer than anticipated to get started due to some contractual issues.
- An assessment is required on the infrastructure required by IT
- Should be implemented by January 2017
- After the pilot program, it would be \$20,000 to pay for the first year, but after that the fees collected through the messaging application would end up paying for the program.

#### Probation

- Currently have 14 PRCS on supervision, 4 are pending release from CDCR, and 5 are on Mandatory Supervision
- Since implementation in 2011, there have been 47 people supervised and 14 offenders received new felony or misdemeanor convictions while on supervision. This brings our recidivism rate to 29% which is comparable to Shasta County's recidivism rate.
- HRN housing has been really important and helpful
- Tuee and Nathan go to pick up PRCS offenders from prison and start case planning as soon as they get out
- None of the PRCS clients have traditional jobs (they mostly do odd jobs, cutting firewood, etc.); Tuee would like to improve on this
- Judge Harper has spoken with other judges in the state and our process of picking up PRCS clients straight from prison is quite unique and not widespread
- The monthly AB109 meetings for comprehensive case planning with all agencies continues to be successful

### District Attorney's Office

- PRCS revocations are not making a big impact on their office currently

### Human Response Network

- Tuee and Nathan's work with PRCS clients has been making a huge difference
- HRN has 2 trailers that are full right now and one person in transitional housing

### Behavioral Health

- Nathan checks in with clients weekly
- Our AB109 supervision plan is working better now than it was in the beginning because of the comprehensive approach
- They will be receiving a \$750,000 grant for Cedar Home, a 2 week transitional housing for 4 people

### Courts

- The public defenders are doing a great job of informing their PRCS clients and working together with the District Attorney's Office

### **Smart Center Presentation**

- Laurie Greig, the Program Supervisor at the Smart Center, gave a presentation on different workshops and services that they offer.
- Many employers do hire people with a criminal background; Smart Center programs give them a skill set and shows them how to be marketable to employers
- National Workforce Readiness Credential – Grant to help people overcome barriers and gain work readiness skills

### **Updating the CCP Implementation Plan**

- Tim has been working on the CCP Implementation Plan and will try to have a draft for review by the next meeting

### **Budget Review**

- Hal gave an overview of CSAC's detailed description of the factors that determine how the growth dollars are allocated.
- Review of Growth Estimate Outline
  - \$26,124 in growth funds this year, significant drop from last year
  - \$608,486 are the base funds
- The state is trying to get the base funds leveled out
- \$584,000 is budgeted now; leaves about \$50,000 not budgeted
- Maybe allocate \$5,000 for SMART Center services? Because of the Smart Center grant programs, it may offset some cost that will keep our cost lower. Nathan will follow up with the Smart Center to better determine which services are most appropriate and what a realistic amount would be to budget.
- TCSO may be asking for more funds in the future to get the Edovo program going until it starts to pay for itself

### **Closing Remarks**

- A Doodle poll will be set up to determine a date for our next meeting.

Close at 11:21am.
